

VISHAL DEWANI

Software Engineer · TypeScript · Node.js · Next.js · AI Integration

vishal.dewani500@gmail.com | Hyderabad, Sindh, Pakistan | [linkedin.com/in/vishal-dewani](https://www.linkedin.com/in/vishal-dewani) | github.com/vishaldewani206 | vishaldewani.vercel.app

PROFESSIONAL SUMMARY

Backend-focused software engineer delivering full-stack web applications for international clients. Specializes in TypeScript, Next.js, Node.js, and PostgreSQL, with growing expertise in AI integration and RAG pipelines. Delivered 10+ client projects on Fiverr with a 5-star average rating. Currently pursuing a B.E. in Computer Software Engineering at Mehran University of Engineering and Technology, with a focus on backend systems, data structures, and AI-powered product development.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Python, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, GSAP, Framer Motion, Three.js

Backend: Node.js, Express.js, REST API Design, PostgreSQL, MongoDB, JWT Authentication, Redis

AI & Integration: OpenAI API, LangChain, RAG Pipelines, pgvector, Generative AI Development

Tools & DevOps: Git, GitHub, Docker, Vercel, Linux, Postman, Vite, npm

PROJECTS

MindSpark Coaching Academy — mindspark-academy.vercel.app

Full-stack Learning Management System (LMS) for a coaching academy delivering online classes and assessments. Client project.

- Architected a multi-role system with student, teacher, and admin access control using Better Auth and role-based permissions.
- Integrated Jitsi Meet for live classroom sessions and KaTeX for rendering mathematical content in MCQ-based assessments.
- Implemented anti-cheat mechanisms, Cloudinary avatar uploads, and Vercel CI/CD deployment pipeline.
- Stack: Next.js, TypeScript, MongoDB, Mongoose, Better Auth, Jitsi, Cloudinary, Tailwind CSS

UMAT Online — umat.online

Mock test platform for university entrance exam preparation, enabling students to practice under real exam conditions.

- Built a timed MCQ assessment engine with automated scoring, result tracking, and performance analytics.
- Implemented user authentication and anti-cheat features to ensure secure and reliable exam delivery.
- Designed for high usability and accessibility to support large volumes of concurrent student users.
- Stack: JavaScript, HTML5, CSS3

EDUCATION

Bachelor of Engineering — Computer Software Engineering

Mehran University of Engineering and Technology, Hyderabad, Pakistan

Aug 2025 – Dec 2029 (Expected)

Higher Secondary School Certificate (HSSC) — Pre-Engineering

Creative Kids High School and College, Pakistan

Aug 2023 – May 2025

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- CS50x: Introduction to Computer Science · Harvard University
 - **Google AI Essentials** · Google
 - **Generative AI for Software Developers Specialization** · IBM / Coursera
 - **Web Design for Everybody Specialization** · University of Michigan / Coursera
 - Introduction to HTML5 · Introduction to CSS3 · Interactivity with JavaScript · Advanced Styling with Responsive Design
